MARE REQUIREMENTS

The CLIENT certifies that he/she is the sole owner of MARE, or has full authority to enter into this contract, on behalf of the owner(s). The CLIENT represents and warrants that MARE to be bred is healthy and in sound breeding condition. STALLION OWNER encourages CLIENT to have MARE current on worming, vaccinations and a clean uterine culture plus cytology done, before insemination. If registered, a photocopy of the MARE'S papers, showing both sides, must be furnished and returned with this contract, as one of the requirements.

LIVE FOAL GUARANTEE

Should MARE fail to be in foal after initial insemination, STALLION OWNER agrees to ship cooled semen for a repeat service AFTER receipt of statement signed by CLIENT'S veterinarian confirming that mare is not in foal and payment of collection and shipping fees. MARE is entitled to return breeding privileges for ONE season following the initial breeding. The contract is not transferable. Should MARE not produce a live foal (i.e. a newborn foal that stands and nurses), CLIENT is entitled to return breeding. This guarantee shall only apply if the STALLION OWNER is notified in writing within 72 hours of the foal's death. A statement of details by CLIENT'S veterinarian must follow within 10 days or the guarantee becomes null and void. This clause is also binding in case of abortion. If the mare absorbs her pregnancy, verification of this fact is required from CLIENT'S veterinarian. Should STALLION die or otherwise be unavailable for use, CLIENT shall be refunded the stud service fee. All other fees are non-refundable for any reason and subject to increase.

FOAL REGISTRATION

The CLIENT will be issued a valid breeding certificate for the WPCSA and/or ISR/OLD NA by the STALLION OWNER when MARE is checked in foal, all paperwork has been returned, and all fees and/or expenses have been paid.
